

Dylan Saffy Contracts Manager/Estimating Manager

Job Description :

My job currently involves overseeing contracts in and around Gauteng and Plettenberg Bay. I do the cost reporting on various contracts and assisting with contract start-ups. I am involved in tendering procedure which involves, pricing of BoQs, getting quotes from suppliers and all the technical aspects of the tender document, such as prelim programs, method statements, local content, plant and equipment, etc.

When & Why did you join L2B?

We joined in mid-2017 and the reason we joined was to open our platform to more sub-contractors within areas we are tendering on. Also to assist with pricing on specialised sections of work for main contractors.

How do you make use of L2B?

We use it mostly for quote requests.

Recent Awards/Projects?

- Rehabilitation of road P156/3 (R42), Vanderbijlpark
- Rehabilitation of road P170/1, Matibidi and Graskop
- Bitou Municipality - Resurfacing of roads
- Emalahleni Local Municipality

Favourite thing about the Construction Industry?

The construction industry is known for its various challenges and each project being unique makes it a rather interesting and enjoyable career to work in. The different types of contracts are similar in nature, however the work is not monotonous. It is a rather small world to be in which makes it exciting.

Something Lighthearted about You?

I haven't driven a TLB, but I would like to. I have driven a tandem roller, though, that's the most extreme I have gone. I think I have 2 hard hats. I am not really scared of heights, I enjoy the adrenaline rush.
