

Kirsty Melton

Business Development Manager, KZN

About Me:

I currently hold the titles of wife, mom and career-driven, Business Development Manager. Wouldn't trade any of these roles for the world. I like to consider myself honest, hardworking, with a high level of enthusiasm. My strength lies in my ability to build solid relationships. I pride myself in being a hard-working, motivated, enthusiastic woman.

Company Description :

Red Alert Service Solutions is a national leader in the Facility Management Services Industry. Our wide range of services includes Cleaning, Guarding, Hygiene, Alarms, Electronic Security and more. We have offices through-out South Africa and employ over 7 500 people. Founded in 1982, Red Alert quickly became an established family business with a developed social conscience and in 2005, Red Alert merged with a 100% black-owned company to form Red Alert TSS (Pty) Ltd. This fast-tracked the company's transformation, enabling it to truly represent the demographics of our nation.

When and Why did you join L2B?

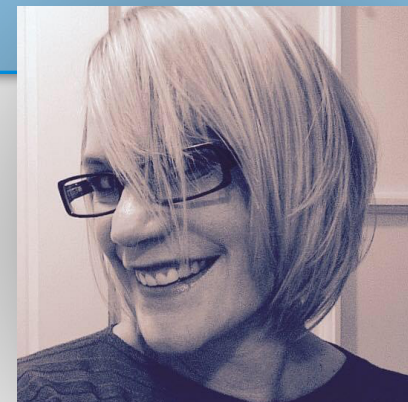

Red Alert joined L2B in 2013. We have been subscribed for so long because we have the ease of knowing about new projects and work opportunities as soon as they are posted, as well as the extra features like monitoring, RFQs and the support given by the Leads team. L2B researches all the trades we specialise in plus more, and this has proven invaluable to us.

What does Success mean to You?

Success means doing something that makes you happy, and that you enjoy. It also means opening yourself to new challenges that enable you to grow and develop mentally, spiritually and professionally.

Something Lighthearted?

I am absolutely and beyond petrified of snakes... its no joke. I could run through walls if I encounter one... this is including seeing one on the tv or a picture!
