

GRANT LOPES – CEO

About Me :

I married my high school sweetheart, we have 3 beautiful kids who are all grown up and nearly out of the house. I am a big family man and I am very passionate about all my family and friends. I enjoy many outdoor activities, like hiking, mountain biking, riding motorbike, rugby and of course, a good old SA braai. I've been in the Civil Engineering field for the last 30 years.

Company Description :

Regal Civils are Civil Engineering contractors that specialise in working for building contractors. Our scope of works is : Demolitions, Bulk Earthworks, Earth or Lined Dams, Township Developments, Roads and Parking Areas, Stormwater Drainage, Water Reticulation, Sewer Mains, Asphaltting and Paving, Gabions, Stone Pitching, Retaining Walls, Concrete Works and Plant Hire.

When & Why did you join L2B?

We joined in May 2019 after we were contacted by a Sales Consultant. I immediately saw the benefits and the additional exposure we would receive being a member of L2B.

How do you make use of L2B?

I now receive a lot more online request for pricing from prospectively new clients and current clients.

Recent Awards/Projects?

Awarded projects (1) Tulbach High School (2) Engen Boschenmeer (3) Engen Settlers Way (4) UCT Chris Hani (5) Avon Terraces. I am proud of all our projects because each 1 is unique and different, but I am most proud of our Gansbaai Project where we were involved for 2 years developing an abalone farm which consisted of various projects amounting to nearly R55 million.

Favourite thing about the Construction Industry?

I enjoy watching a project grow from tender stage, awarding, planning, implementation and the final project which develops like a beautiful flower in front of our very eyes. I believe (I know, it sounds like a cliché) that hard work, dedication, commitment and consistency is what adds to me as a person but also contributes in all that I am and do at Regal Civils.
