

# Afrimat Contracting International

## Business Overview:

**Afrimat Contracting International** supplies specialised services to the mining, construction, oil and gas, and quarry industries in South Africa and into Mozambique.

Afrimat's strength lies in having competent staff, being masters in operational efficiency, and providing our customers with product solutions resulting in significant downstream savings.

## Our Services:

- **Contract Crushing and Screening.** Afrimat operates internationally, supplying specialised and customised crushing and screening services.
  - Our plants, services, and equipment on offer, include tracked mobile crushers; screening; primary, secondary, and tertiary crushing and screening; and load and haul and stockpile services.
- **Drilling and blasting services.** Which include blast design, mine or quarry planning and development, and blast optimisation.
  - We specialise in the latest drill and blasting techniques, ensuring optimised costs and blast results. Through this division, we operate a modern fleet of Atlas Copco drill rigs and offer a full complement of highly qualified staff.
- **Establishing mobile readymix plants.** For small or large projects. Our products include all grade of concrete, pumped readymix concrete, readymix mortars and plasters, self-compacting concrete, exposed aggregate concrete, and pigmented coloured concrete.
- **Bid preparation and contractual services.** Through this division, we devise offers that are professional, contractually responsible and well-packaged.
- **Establishing commercial quarries.** At Afrimat we are experts in the establishment of commercial quarries, including the crushing and screening of all products.

## What makes Afrimat Unique?

Afrimat Contracting International offers a full packaged solution from greenfield to product on ground.
