

Derek Kock - Principal Architect

About Me:

I am experienced in many aspects of the built environment, including design, green building, contractual, development and management of projects. I am the founder of Derek Kock & Associates Architects, better known as DK Architects, 20 years ago. I am a Professional Architect and the executive director at DK Architects or DKA. I have a hands on approach and involved in all projects and appointments.

Company Description :

DKA is a small, but dynamic Architectural firm specialising in commercial, industrial & residential developments.

When & Why did you join L2B?

We joined L2B 3 years ago for mostly Consultant Tenders. DKA focuses on many government projects and we are always looking out for new tenders.

Recent Awards/Projects?

Recently completed:

- The Water and Sanitation Department Headquarters for the City of Cape Town
- Upgrade and renovations of the Cape Town City Hall for which we receive recognition from the Cape Institute of Architects
- SANBI: New Educational Facilities for the SA Botanical Institute at the Harold Porter National Gardens in Betty's Bay.

Currently working on :

- Construction recently commenced on The University of the Western Cape South Campus Educational Faculty and Precinct
- Construction nearly complete for Stellenbosch University: Upgrade and New Lecture Rooms at the Natural Sciences Faculty
- Several Taxi interchanges for the City of Cape Town Transport.

Something Lighthearted?

We love the smell of fresh bricks and concrete in the morning!
