Company Overview

Nyondo Holdings is a construction & facilities management company that specialises in building, renovations, preventative and reactive maintenance. Our company is based in South Africa and we are professionals that train and empower our teams to build your dream projects with quality products. When it comes to maintenance, remodelling or home additions, Nyondo Holdings strives to deliver excellence in every aspect. Our team is dedicated to providing you with a quality service.

The services we bring you are numerous and include general maintenance, renovations, construction of new homes, building maintenance, repairs, internal electrical installations to plumbing fixtures. We listen to our clients' needs and address them accordingly. Our Managing Director, Golden Nyondo Haul, has over 18 years' experience in the building industry in South Africa and Internationally and is fully certified. Golden is proud to lead a loyal and committed team, implementing a hands-on approach which inspires and motivates them. He has successfully managed a number of projects since 2010.

What do you use L2B for?

We use L2B as an introductory and research tool to get our company out there to different people within our industry.

Any recent projects or awards?

Many projects with many happy clients.

Favourite thing about working in the construction industry?

One day you drive up to your site like normal, but this time, your project is complete. And then it hits you, you just built something from nothing.

Favourite quote?

Don't just exist, live — Roy T. Bennett, The Light in the Heart
