About Anthony

I am a founding member of Enforce Security, established in 1989. Since then, we have grown and are now known as Excellerate Services, offering a range of services. In my role as National Operations Director, I am primarily tasked with the management of the operational services nationally for Excellerate Services, providing both crucial support and strategic insight. I was a member of the South African Police Service before starting Enforce Security. In my free time I enjoy fishing, a good conversation with family and friends, and assisting those in need within my local community.
