Gauteng Piling (Pty) Ltd

About Nico

Nico Maas has been in the piling business since 1995 and started Gauteng Piling in 1996. Nico is a Professional Engineer. As CEO Nico's responsibilities include all aspects of managing the company, including tenders, plant management and people management.

About The Company

Since the arrival of our first piling machine in Johannesburg in July 1996, Gauteng Piling has continued to grow into one of the foremost piling and drilling contractors in South Africa. To date, we have completed in excess of 1800 projects.

We do piled foundations, lateral support and underpinning and will continuously strive to be the preferred piling contractor in Gauteng.

Industries

Our products are used on site at industrial, residential, commercial and all other industries requiring our services.

What makes Gauteng Piling unique?

We deliver cost effective solutions to foundation requirements

Why did you join L2B?

We recently rejoined L2B because we became aware of the fact that we were not getting all the tender enquiries that are published.

What do you intend to use L2B for?

We intend to use L2B to get information about new tenders and bidders.

Any recent projects or awards you are proud of?

We've completed a number of large projects recently, including The Falls, Grand Central Towers, Bertrams Housing and 304 Main Road

Where do you have branches?

Afrimat has a national footprint.

Favourite thing about working in the construction industry?

Satisfaction about completing a difficult job satisfactorily
