# Dewpoint Industries

## About Dewpoint Industries

Established in 2003, Dewpoint is a reputable wholesaler and distributor of a variety of removable surface protection products in South Africa. Our temporary surface protection solutions are geared towards the industrial and construction industry around South Africa. Dewpoint Industries' surface protection films, sheets, tapes, and other temporary products are useful in providing protection to the original surface from damage while construction, manufacturing, repair, paintwork, etc are carried out.

## Products & Services

Our wide range of world-class temporary or removable surface protection products offers a wide range of protective solutions for your industry. Keep materials and surfaces safe! Easily remove these protection products after you have stored, transported, processed, or installed

- Protective Film: Glass & Aluminium window and doors | Coated metal sheeting and coils | Stainless Steel Sheeting | Carpets & Floors
- Protective Tape: Aluminium Extrusion Tape | Aluminium Window & Door Protection Tape | Up to 12 months UV resistance
- Protective Board: Heavy Duty Floor Protection | Spill proof & Breathable | 97m<sup>2</sup> per roll

## Why did you join L2B?

We joined L2B in October 2016 to gain inside information about projects we are interested in.

## What do you currently use Leads 2 Business for?

Finding projects and building up contacts and a network of contractors.

## Any particular L2B features you like?

Export feature, notes and project monitoring.

## Favourite thing about working in the Building & Construction Industry?

I love the architecture and design brilliance and what seeing how people solve complex problems. Also encouraging to see the economical impact it has on a community.

## Recent awards/projects:

Supplying our range of protection products through the relevant contractors for glass & aluminium Facades, roof cladding, floors & carpets and internal fit out to Rivergate Club, Harbour Arch, Investec HQ, The Rubik and more

## And something light-hearted:

I once drove a dumper truck into a dam because the brakes failed
