## About Eppen-Burger & Associates

Eppen-Burger & Associates (E&A) was established on the 1st March 2004, coinciding with the promulgation of the Construction Regulations 2003. Marius Eppenberger and Andre Burger are the founding members. E&A was one of the first practicing Construction Health & Safety Agencies in the Western Cape and South Africa, strategically placing us at the forefront of the profession.

Our core activity is representing the Client/Developer/Owner as the appointed Construction Health & Safety Agent (Pr.CHSA) in terms of the provisions of the Construction Regulations and the requirements of the statutory body for the registration of Pr.CHSAs, namely the South African Council for the Project and Construction Management Professions (SACPCMP).

Eppen-Burger & Associates prides itself on offering a personalized, project-specific service. Our individual expertise and industry experience places us at the forefront of the industry in terms of experience, qualifications, and knowledge.

## Services

Eppen-Burger & Associates offers construction health & safety services to the construction industry:

- Health and Safety Agent Services
- Occupational Health and Safety Inspections of Buildings
- Legal Liability Assistance
- Incident Investigations
- Environmental Control Officer Services
- Asbestos Inventories and Risk Assessments

## Why did you join Leads 2 Business?

We decided to make use of L2B again in order to broaden our search for new construction projects, both private and public in nature.

## Philosophy

Our values and standards have always formed the basis of our success.

E&A's philosophy is to keep construction workers and their wellbeing central to what we do. We come to work every day with the goal of reducing risks on construction sites thereby doing our bit to saving workers' lives.
