

# Safe Working Practice S A cc

## About Safe Working Practice

Safe Working Practice is a consultancy specialising in Occupational Health and Safety in all industries including construction, renewable energy, transport, civil works, routine road maintenance, low cost housing, manufacturing, wholesale, retail, learning institutions, agriculture, etc.

We have been in operation since 2009, with 14 offices nationwide and a staff compliment of more than 120. We have a large portfolio of projects throughout South Africa and conduct approximately 1 000 site audits every month. Our vision is to provide a cost effective and professional Health and Safety advisory service with a strong emphasis on quality and client satisfaction. We believe that we can make a difference to people's attitudes towards Health and Safety in providing our clients with a sound Safety Management System. We strive to reduce the number of fatalities and disabling injuries in the workplace, most of which are preventable.

## Product Range

Safety Agent function:

- Design review meeting: Give input during design phase of the project regarding Health and Safety matters that might affect the design.
- Preparation of Safety Specifications.
- Construction Work Permit: Compile and submit Construction Work Permit applications to the Department of Employment and Labour on behalf of the Client.
- Assessment and approval of the Principal Contractor's safety plan.
- Carrying out site safety audits and compilation of an audit report that include administrative and physical findings.
- Accident and Incident Investigation.
- Close-out audits.

Safety Advisor function:

- Preparation of Safety Plans, Safety Files, Method Statements, Risk Assessments and other safety documentation
- Carrying out safety inspections of sites to advise on Health and Safety issues and recommendations for complying with legislation.
- Accident and Incident Investigation
- Provision of part time / fulltime safety officers that are registered with SACPCMP.
- Work shop audits.

Electronic safety management solution - [www.imanagecompliance.co.za](http://www.imanagecompliance.co.za)

- i-Manage Compliance is a SAAS system that was developed in response to the growing demand for a comprehensive compliance management system. We provide our clients with an electronic safety management tool to revolutionise their Health and Safety systems, as well as the proper training to upskill their employees to adapt to the growing requirements for Health and Safety, Environmental and Food Safety systems. The system is accessible from anywhere in the world and allows our clients to monitor and manage their legal compliance by means of a dashboard. Our team understands the importance of onboarding in the success of any management system and do our best to ensure that there is full buy-in from all parties.

## What makes you unique?

We are a national company that can resource projects cost effectively anywhere in the country. We work on an electronic system, ensuring the quality of our audits standards is the same through all our branches.
